Student Accident Insurance Coverage

Why Accident Insurance?

Educational institutions across the country deliver a wide range of educational opportunities to enrich the lives of children. Field trips and other extracurricular activities provide students with dynamic, new ways to understand the world beyond the classroom setting.

When accidents occur on school property or during supervised school activities, it can present potential liability to schools as well as financial and emotional hardship to affected families.

Accident insurance offered by AIG's Group Benefits business can help districts/schools fulfill their commitment to the well-being of their student body.

What Can Accident Insurance Offer?

- District/School staff members and students are covered while engaging in specified covered activities that are sponsored or supervised by the district/school. Benefits are available for Injury(ies) sustained as a result of a covered loss.
- Accident insurance can complement a district/school's general liability policy by filling in gaps that may exist or by offering broader limits. For example, providing coverage while traveling directly between their home and the school location is an especially valuable feature of accident insurance.
- Multiple plan options are available to meet each district/school's specific needs.
